

FIDIC MODULE 5 TRAINING COURSES - AGENDA

Ha Noi City, 5th and 6th November, 2019

Ho Chi Minh City, 8th and 9th November, 2019

This course used to be built upon the Second Edition 2017 of FIDIC Conditions of Contract for EPC/Turnkey Projects incorporating with reference to major differences provisions in the First Edition version 1999. The focus covers also not just the differences in comparison with the other (traditional) contract types by FIDIC, but also those new features, which are introduced in the 2017 second edition. In addition to the lecture-type sessions, cases and exercises will also help the participants to deepen their knowledge. Questions & Answers sessions at the end of both training days provide good opportunity for the participants to link the theoretical backgrounds introduced by the trainer with their everyday experience, and challenges they face in such specific projects. The course participants will have an opportunity also to learn about the basic features of the 2008 FIDIC Design, Build and Operate form of contract (Gold Book).

Along with main contents presentation, during the training course, case studies from actual Projects will be delivered by Trainer for enhancing professional skill and exchanging experience among participants
